PROFESSIONAL SUMMARY

Front-End Developer with 1.7 years of hands-on experience in building responsive, modular web applications using React.js, Svelte.js, and Next.js. Adept at implementing Micro Frontend architecture, optimizing UI performance, and integrating GraphQL APIs. Proven ability to deliver scalable solutions in Agile environments for SaaS and healthcare domains.

TECHNICAL SKILLS

- Languages:** JavaScript, HTML5, CSS3, Java (Basics)
- Frameworks & Libraries:** React.js, Svelte.js, Next.js, Tailwind CSS, DaisyUI, ApexCharts, GraphQL, Day.js
- Tools & Platforms:** GitHub, VS Code, Jira, Figma, Webpack, NPM, Postman
- Soft Skills:** Team Collaboration, Time Management, Public Speaking, Agile Methodologies

PROFESSIONAL EXPERIENCE

Frontend Developer | MedianV, Ahmedabad

Mar 2024 – Present

- Developed scalable UI components using Svelte.js for a dental SaaS platform.
- Implemented Micro Frontend architecture, reducing module-level dependencies.
- Integrated GraphQL APIs, improving API response time by ~25%.
- Enhanced global search functionality with RBAC and user-specific redirection.
- Collaborated with cross-functional teams using Jira and Agile sprints.
- Contributed to 4+ modules released to production with zero post-deployment issues.

Mobile App Developer Intern | Vishva Software, Ahmedabad

Feb 2023 – May 2023

- Built 4+ Android apps using Java, focusing on UI responsiveness and performance.
- Designed intuitive interfaces and integrated REST APIs.
- Participated in debugging, testing, and final deployment to Play Store.

PROJECT HIGHLIGHT

Global Search Component for SaaS Platform

Tech Stack: Svelte.js, JavaScript, Tailwind CSS, GraphQL

- Built a reusable and accessible search component handling 4+ data models.
- Optimized GraphQL queries, reducing overfetching by ~40%.
- Integrated real-time updates with loaders and pagination for large datasets.
- Implemented role-based access (RBAC) and user-based redirection logic.

Realtime Chat Application

JavaScript (ES6), React (Functional Components & Hooks), Promises, Axios, MongoDB Atlas, Git, GitLab

- Built a realtime chat application allowing users to register/login via email and initiate private 1-to-1 chats.
- Used React Hooks and functional components to manage UI state and reactivity.
- Integrated MongoDB Atlas to store user profiles and chat histories securely.
- Managed API communication with Axios and handled async data using JavaScript Promises.
- Implemented authentication and session handling to ensure secure user interactions.
- Utilized GitLab for version control and team collaboration workflows.
- Ensured responsive UI and smooth UX across modern web browsers.

EDUCATION

B.Tech – Information Technology | Alpha College of Engineering and Technology, (2019 – 2023)
Ahmedabad

GPA: 9.21 / 10
